SESSION 4 · THE RULE KEY · §01'S NINE, IN SORTER ORDER

● binds ◐ a twin rule does the same job ○ no · **H / M / L** = how sure

No US securities rule was written for AI. Your registration decides which duties are yours; the CFP marks add CFP Board's Code on top.

RULE	PASSED · IN FORCE	WHAT IT DOES	RIA	BD	CFP	VENDOR	AI?	SAY IT · THE TRAP
LANE 2 · A DUTY YOU ALREADY HAVE · items 1 to 5 · binds you now, written before AI, reaches AI work unchanged								
1 Regulation S-P SEC · 17 CFR Part 248	**2000** · amended **May 2024** In force: **3 Dec 2025** ($1.5B+ RIAs), **3 Jun 2026** smaller H	Protect client NPI. Since 2024: a breach plan, **clients told within 30 days**, vendor contracts that **report to the firm within 72 h**.	●	●	◐	○	GENERAL	**"Pasting client data into a tool is a disclosure."** It needs a contract limiting the vendor's use; a consumer plan has none. TRAP "She is my client" is NPI by itself.
2 Fiduciary duty Advisers Act §206 · 15 USC 80b-6	**1940** · duty from *Capital Gains*, **1963** · SEC restated **2019** H	Duty of **care** (best interest, a reasonable basis, monitoring) and **loyalty**, for all advice.	●	◐	◐	○	GENERAL	**"The duty attaches to the advice, not the tool."** Unchecked AI output is advice with no reasonable basis. Twins: Reg BI (BD), A.1 (CFP).
3 FINRA Rule 3110 Supervision	In force **1 Dec 2014** H	A supervisory system and written procedures reasonably designed to catch violations.	◐	●	○	○	GENERAL	**"Your staff's AI work is still their work."** TRAP A binding rule, not guidance: the rule 24-09 points at. Advisers' twin: 206(4)-7, §203(e)(6).
4 FINRA Rule 2210 Communications with the public	In force **4 Feb 2013** · AI FAQs **May 2024** M	Fair, balanced, not misleading. **Retail** (25+ retail investors in 30 days): principal **pre-approves**. **Correspondence**: reviewed, kept.	◐	●	○	○	GENERAL	**"An AI-drafted email is a firm communication."** TRAP One client email is correspondence: no pre-approval. Advisers' twin: the Marketing Rule.
5 Books and records Advisers 204-2 · BDs 17a-4, FINRA 4511	204-2 since **1961** M	Keep what supports advice and business mail: **5 yrs** advisers, **3 yrs** BD mail, **6 yrs** FINRA default.	●	●	○	○	GENERAL	**"A prompt and output that support advice are records."** TRAP No rule names prompts yet. Say "treat as", not "the rule says".
LANE 3 · GUIDANCE OR A PROPOSAL · items 6 to 8 · names AI, binds nobody								
6 FINRA Notice 24-09 Regulatory Notice, generative AI	**27 Jun 2024** H	Reminds member firms the existing rules apply to generative AI. **No new requirement.**	○	○	○	○	NAMES AI	**"No new requirement. The existing rules apply."** TRAP Naming AI does not make it binding. It is a signpost to rows 3 to 5.
7 SEC exam priorities FY2026, Division of Examinations, §VII	**17 Nov 2025** · fiscal year ends **30 Sep 2026** H	What examiners test: AI claims, AI supervision, Reg S-P readiness, polymorphic malware.	○	○	○	○	NAMES AI	**"No duty. It tells you which duties get checked."** TRAP It lapses two days after class; FY2027 due Oct or Nov M.
8 SEC analytics proposal Predictive data analytics, S7-12-23	Proposed **Jul 2023** · withdrawn **12 Jun 2025**, with 13 others H	Would have made firms neutralise conflicts in AI tools used with investors.	○	○	○	○	NAMES AI	**"The one US proposal that would have named the technology. Withdrawn: binds nobody."**
LANE 1 · A RULE WRITTEN FOR AI · item 9 · names AI, binds someone, not you								
9 EU AI Act, Art. 50 Regulation (EU) 2024/1689	In force **Aug 2024** · Art. 50 **2 Aug 2026**; older tools **2 Dec 2026** M	AI providers mark AI output machine-readably; deployers label deepfakes.	○	○	○	●	AI LAW	**"Binding law that names AI. Not a US securities rule."** It is why Claude marks its text. TRAP It binds Anthropic, not a US adviser with US clients.

WHO YOU ARE → YOUR ROWS

- **Rep of an SEC-registered adviser**: 1, 2, 5 + Marketing Rule, 206(4)-7
- **Rep of a broker-dealer**: 1, 3, 4, 5 + Reg BI for 2
- **Dual registrant**: 1 to 5
- **State-registered adviser**: 2, state records rules, FTC Safeguards Rule (not S-P)
- **CFP marks, any of these**: + Code A.1, A.9 privacy, A.14 technology
- **Non-advisors**: none by registration; the employer's policy

ALSO NAMED ON THE PAGE

- **CFP Board Code**, in force 1 Oct 2019. **A.14**: reasonable care selecting, using and recommending technology. Binds every CFP pro. General.
- **CFP GenAI Ethics Guide**, Feb 2025: pseudonyms, strip details before upload. Guidance.
- **AI-washing**, 18 Mar 2024: $225,000 and $175,000, Marketing Rule, AI claimed, not used.
- **Daly**, SEC, 3 Feb 2026: who answers for wrong AI output is "unsettled".

IF YOU ARE ASKED

- **"Does the vendor owe the 72 h?"** No, the firm does, through its contract.
- **"Are prompts records?"** Unresolved. FINRA's 2026 report suggests prompt and output logs M. Keep them.
- **"Is pre-approval going away?"** Proposed Jul 2026, Notice 26-14 M. Not adopted.
- **"Who can read Claude's mark?"** Bodies EU law names, and firms the Act obliges. Nothing says it names an account.
